'Ulama can spread AIDS message'

KOTA BARU: The ulama and imam could help enhance awareness of the transmission of HIV/AIDS as their voices are heard by all levels of society, said Malaysian AIDS Council deputy president Datuk Zaman Khan. He said the ulama and imam could impart information on the scourge of the disease in religious lessons, sermons and ceramah, not only in mosques but also at public forums. "Their role could be more effective than that of government agencies or non-governmental organisations," he said yesterday. — Bernama
