## **ZERO-HIV TARGET**

**HULU TERENGGANU:** Awareness among people suffering from HIV in the state is quite low, with only 30% receiving treatment said Terengganu Health director Dr Mohamad Omar. Based on records, 563 HIV cases were recorded in the state from 1988 to June this year. "We are viewing this seriously. We are aiming to make Hulu Terengganu zero-HIV by 2020 through the "Cities Getting to Zero" project, introduced in stages at the ministry level since 2012," he said after launching the "Hulu Heading Towards Zero HIV by 2020" project in conjunction with World AIDS Day 2016. – Bernama
